

il vapore

sale

in cielo

le nuvole

creno

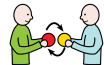

le gocce

l'acqua

si trasforma

in vapore

pioggia

grandine

neve

cadono

sulla terra

generando

i mari

i fiumi

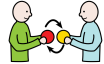

e i laghi

le gocce

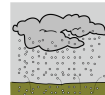

si trasformano

in pioggia

grandine

neve

il freddo

crea

le nuvole

il sole

riscalda

l'acqua

dei

mari

fiumi

laghi
